

OBJECTIF

chez Techasite

Construire un prototype

**fonctionnel d'un nouveau
site web pour**

son nouveau client

FISHEYE

Fish**ye**

Logo de FishEye

Site web

**permettant
aux photographes indépendants
de présenter leurs meilleurs travaux.**

Prototype des fonctionnalités

Page Accueil

- * Liste des photographes comprenant :
- * nom, slogan, localisation, tarification.
- * Liens vers une page proposant tous les travaux du photographes

Page Photographe

- * Affichage d'une galerie des travaux du photographe
- * Images et / ou vidéos
- * Sélections, tri par choix
- * Lightbox
- * Gestion de likes

Contraintes techniques

- Distinguer les fichiers: HTML- CSS- JavaScript
- ESLint en paramètre par défaut
- Version minimum de JavaScript ES6
- Cohérence des noms de variables
- Commenter le code non explicite

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file **index.html**

Checker Input

Show ☐ source ☐ outline ☐ image report

Check by index.html

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Document checking completed. No errors or warnings to show.

Used the HTML parser.

Total execution time 8 milliseconds.

[About this checker](#) • [Report an issue](#) • Version: 22.6.5
